Homelessness Prevention Project

Our Homelessness Prevention Project supports people facing actual and threatened homelessness and those at future risk.

We work across North and West Kent and support local people in Gravesham, Dartford, Swanley, Sevenoaks, Tonbridge & Malling and Tunbridge Wells.

There are lots of ways we can help people avoid homelessness and support people in housing crisis including:

- Advise and support people facing homelessness
- Support and represent people facing possession proceedings or eviction
- Liaise and negotiate with landlords, housing associations and mortgage providers
- Offer support with money management, debt, benefits and income maximisation
- Help prevent a situation getting out of control and reaching crisis point
